

A6 AIN

Step inside a world of comfort and delight.

RoyalJet

BOEING BUSINESS JET

A6 AIN

This beautiful recently upgraded aircraft offers a VVIP interior which includes a forward stateroom and ensuite VIP lavatory, forward and aft galleys, club/conference seating and a VIP lounge (majlis) mid-cabin, and aft business class and standard class seating.

A full interior refurbishment was done on this aircraft in 2013 using premium materials such as Ostrich skin and high gloss wood veneer. It also features a state-of-the-art iPad-controlled IFE System, a high-quality sound system which includes overhead speakers and subwoofers, and HEPA filtration which optimize passenger health and comfort.

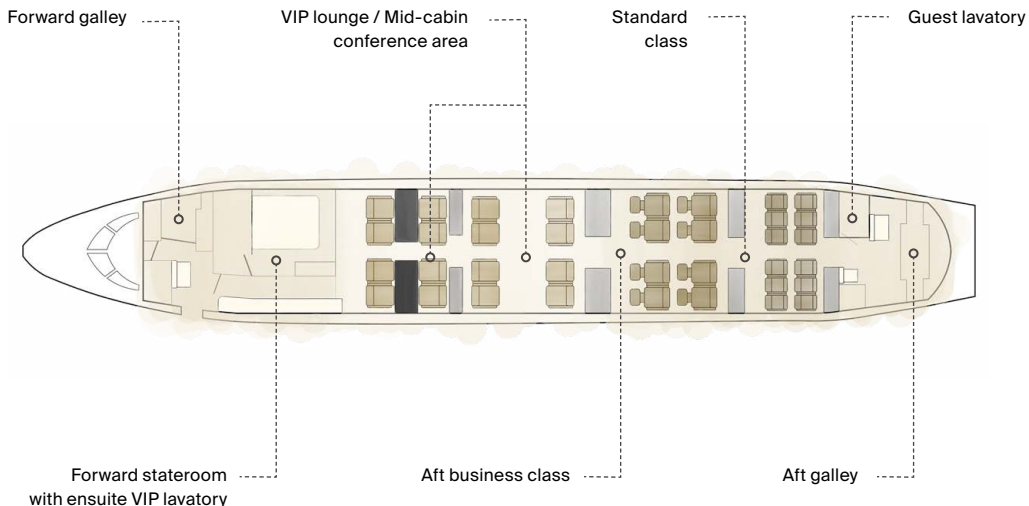

In late 2020, further interior touch-ups were completed and communications were upgraded to the latest and highest speed system (Ka-Band WiFi) available globally. This system allows for streaming of high definition video content, including via passengers' own accounts with providers such as Apple TV, Netflix, and Amazon Prime Video.

The cabin configuration offers flexibility between lower density (36 pax), or higher density (46 pax) depending on the client's preference and mission profile, and the aircraft is also capable of being converted into Medevac configuration via the installation of up to three ICU modules.

For a restful and comfortable trip overnight or at any time of the flight, this aircraft offers a queen-sized bed, 4 lie-flat seats and up to 24 seats reclinable to 140°.
